Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/697,066	Applicant(s) RYAN, SHAUN PATRICK	
	Examiner OLABODE AKINTOLA	Art Unit 3691	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-17 and 21-29 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Based on Supreme Court precedent and recent Federal Circuit decisions, a 35 U.S.C § 101 process must (1) be tied to a particular machine or (2) transform underlying subject matter (such as an article or materials) to a different state or thing. In re Bilski et al, 88 USPQ 2d 1385 CAFC (2008); Diamond v. Diehr, 450 U.S. 175, 184 (1981); Parker v. Flook, 437 U.S. 584, 588 n.9 (1978); Gottschalk v. Benson, 409 U.S. 63, 70 (1972); Cochrane v. Deener, 94 U.S. 780,787-88 (1876).

An example of a method claim that would not qualify as a statutory process would be a claim that recited purely mental steps. Thus, to qualify as a § 101 statutory process, the claim should positively recite the particular machine to which it is tied, for example by identifying the apparatus that accomplishes the method steps, or positively recite the subject matter that is being transformed, for example by identifying the material that is being changed to a different state. Here, Applicant's method steps are not tied to a particular machine and do not perform a transformation. Thus, the claims are non-statutory.

Claim Rejections - 35 USC § 102

Art Unit: 3691

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Risk Management Solutions, Inc (www.rms.com, September 18, 2002, Terrorism Risk Brochure titled “Understanding and Managing Terrorism Risk” and associated webpages) (hereinafter referred to as RMS).

Re claims 1-29: RMS teaches a method of assigning a quantitative risk value to a property, the quantitative risk value proportionally related to the likelihood of terrorist action against the property, comprising: receiving an evaluation of the susceptibility to damage of the property by a terrorist action that may affect the at least one aspect of the property; receiving an evaluation of the likelihood of a terrorist action directed against the property; and determining the quantitative risk value of the property at least partially in relationship to (1) the evaluation of the susceptibility to damage by terrorist action of the at least one aspect of the property, and (2) the evaluation of the likelihood of a terrorist action directed against the property, whereby the quantitative risk value may be used by an insurer in setting an insurance premium for an insurance policy (paragraphs 1-87).

Claims 1-29 are rejected under 35 U.S.C. 102(e) as being anticipated by Henderson et al (USPAP 20040249679).

Re claims 1-29: Henderson teaches a method of assigning a quantitative risk value to a property, the quantitative risk value proportionally related to the likelihood of terrorist action against the property, comprising: receiving an evaluation of the susceptibility to damage of the property by a terrorist action that may affect the at least one aspect of the property; receiving an evaluation of the likelihood of a terrorist action directed against the property; and determining the quantitative risk value of the property at least partially in relationship to (1) the evaluation of the susceptibility to damage by terrorist action of the at least one aspect of the property, and (2) the evaluation of the likelihood of a terrorist action directed against the property, whereby the quantitative risk value may be used by an insurer in setting an insurance premium for an insurance policy (abstract, figures, paragraphs 7-16, 28-107).
